

St. James Lutheran Church Endowment Fund  
Grant Application

Dear Applicant,

The purpose of the Endowment Fund is “To enhance the work of the Church by establishing new Christian ministries...outside of the church; to respond to special needs and programs within the church which are beyond the operating budget of the church; and to make available scholarships to Christian students”.

If you have a vision for a new ministry outside the congregation; are looking for support for special needs, programs or projects that are within the ministry of the church and funds are not in the church’s budgeting process; or if you are a student seeking education for church vocational ministry, you are encouraged to apply for grants to support your efforts.

Should you be granted funds it is required that a report be filed within six months of grant approval to delineate how funds were expended and to what extent your original goals were attained. No subsequent grants will be considered if a report is not filed, this includes continuing scholarships and ministries.

Please fill out the application fully. List the person or persons who will be responsible for expending grant moneys. Be specific about how your project/scholarship will enhance or grow the ministry of Christ’s church or serve those in need.

The Endowment Committee
